(b) Portfolio turnover rate is calculated on the basis of the Fund as a whole without distinguishing between classes of shares issued.

(c) Date of commencement of operations.

+ Calculated based on ending shares outstanding during the year or period.

* Calculated based on average shares outstanding during the year or period, unless otherwise noted.

** Not annualized for periods less than one full year.

*** Annualized for periods less than one full year.

**** Due to the short life of the Fund and significant cash inflows into the Institutional Class at the end of the year, the ratio of net investment income is not indicative of future results.

Notes to Financial Statements April 30, 2017 (Unaudited)

1. Organization:

The American Independence Funds Trust (the "Trust") was established as a Delaware business trust on October 7, 2004 as Adventus Funds Trust and is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company. The Trust was subsequently renamed on June 10, 2005 as Arrivato Funds Trust. Effective March 2, 2006, the name of the Trust was changed to American Independence Funds Trust in connection with the Trust's reorganization and merger with the former American Independence Funds Trust.

As of April 30, 2017, the Trust offered seven series, or mutual funds, each with its own investment objectives and strategies. This report contains the financial statements and financial highlights of the funds listed below (individually, a "Fund"; collectively, the "Funds"):

- AI Large Cap Growth Fund (formerly American Independence Navellier Large Cap Growth Fund)
- American Independence Hillcrest Small Cap Value Fund
- American Independence JAForldines Global Tactical Allocation Fund
- AI International Fund (formerly American Independence Multi-Manager International Fund)
- American Independence Kansas Tax-Exempt Bond Fund
- American Independence Carret Core Plus Fund
- American Independence U.S. Inflation-Protected Fund

The Trust is authorized to issue an unlimited number of shares, which are units of beneficial interest with a par value of \$0.001 each. The U.S. Inflation-Protected Fund offers four classes of shares: Class A, Class C, Institutional Class, and Premier Class. The Large Cap Growth Fund, Hillcrest Small Cap Value Fund, JAForldines Global Tactical Allocation Fund, and Kansas Tax-Exempt Bond Fund offer three classes of shares: Class A, Class C, and Institutional Class. The International Fund and Carret Core Plus Fund offer Class A and Institutional Class shares only. Each share class is identical except as to distribution and service fees borne by each class. Each share represents an equal proportionate interest in a Fund with other shares of the same class, and is entitled to such dividends and distributions out of the income earned on the assets belonging to that Fund. All of the Funds are diversified under the 1940 Act except for Large Cap Growth Fund, and Kansas Tax-Exempt Bond Fund.

2. Significant Accounting Policies:

The Funds are investment companies and follow the accounting and reporting guidance under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 946, Financial Services-Investment Companies. The following is a summary of significant accounting policies consistently followed by the Funds in the preparation of their financial statements.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Funds to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. The Funds believe that the estimates utilized in preparing the financial statements are reasonable and prudent, however, actual results could differ from these estimates.

Investment Valuation

Portfolio securities listed or traded on domestic securities exchanges or the Nasdaq are valued at the market value as of the close of regular trading on the New York Stock Exchange ("NYSE"), usually 4:00 p.m. Eastern Time ("Valuation Time"). If there have been no sales for that day on any exchange or system for a security, the security is valued at the mean between the closing bid and asked quotes on the exchange or system where the security is principally traded or at the Nasdaq official closing price, if applicable. Debt securities held by a Fund generally are valued at the mean of the latest bid and asked price as furnished by an independent pricing service. Debt securities generally trade in the over-the-counter market rather than on a securities exchange. The Funds' pricing services use multiple valuation techniques to determine fair value. In instances where sufficient market activity exists, the pricing services may utilize a market-based approach through which quotes from market makers are used to determine fair value. In instances where sufficient market activity may not exist or is limited, the pricing services also utilize proprietary valuation models which may consider market characteristics such as benchmark yield curves, option-adjusted spreads, credit spreads, estimated default rates, coupon rates, anticipated timing of principal repayments, underlying collateral, and other unique security features in order to estimate the relevant cash flows, which are then discounted to calculate the fair value. Short-term debt investments having maturities of 60 days or less are valued at amortized cost, which approximates fair value. Investments in investment companies are valued at their net asset values as reported by such companies. The differences between cost and fair values of such investments are reflected as unrealized appreciation or depreciation.

Notes to Financial Statements (Continued) (Unaudited)

2. Significant Accounting Policies: (Continued)

Most securities listed on a foreign exchange are valued either at the last sale price at the close of the exchange on which the security is principally traded or at fair value (see description below). Foreign securities, currencies, and other assets and liabilities denominated in foreign currencies are translated into U.S. Dollars at the exchange rate of said currencies against the U.S. Dollar, as of Valuation Time, as provided by an independent pricing service approved by the Board of Trustees. The Funds do not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments on the accompanying Statement of Operations.

Securities for which prices from the Funds' pricing services are not readily available are valued at fair value by RiskX Investments, LLC ("RiskX Investments" or the "Adviser") or the sub-adviser in accordance with guidelines approved by the Trust's Board of Trustees. For securities traded principally on foreign exchanges, the Funds may use fair value pricing if an event occurs after the close of trading of the principal foreign exchange on which a security is traded, but before calculation of a Fund's NAV, which a Fund believes affects the value of the security since its last market quotation. Such events may involve situations relating to a single issuer (such as news related to the issuer announced after the close of the principal foreign exchange), or situations relating to sectors of the market or the markets in general (such as significant fluctuations in the U.S. or foreign markets or significant changes in exchange rates, natural disasters, armed conflicts, or governmental actions). In determining whether a significant event has occurred with respect to securities traded principally in foreign markets, the Funds may engage a third party fair value service provider to systematically recommend the adjustment of closing market prices of non-U.S. securities based upon changes in a designated U.S. securities market index occurring from the time of the close of the relevant foreign market and the close of the NYSE.

FASB ASC Topic 820, "Fair Value Measurements and Disclosures", establishes a single authoritative definition of fair value, sets out a framework for measuring fair value and requires additional disclosures about fair value measurements.

Various inputs are used in determining the value of the Funds' investments. These inputs are summarized in the three broad levels listed below:

- Level 1 – quoted prices in active markets for identical securities
- Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 – significant unobservable inputs (including a Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The aggregate value by input level, as of April 30, 2017, for each Fund's investments, as well as a reconciliation of assets for which significant unobservable inputs (Level 3) were used in determining value, is included in each Fund's schedule of portfolio investments, which also includes a breakdown of the Fund's investments by geographic, or industry concentration or type of investment.

With respect to the Funds, there were no transfers into and out of any level during the current period presented. It is the Funds' policy to recognize transfers into and out of all levels at the end of the reporting period.

The valuation of a Level 3 security will be dealt with on a case by case basis and will depend upon the circumstances surrounding that security. In determining a fair value, the Funds' Adviser will assess a value that they might reasonably expect to receive for a security upon its current sale. Methods for valuing securities may include, but are not limited to, multiple earnings; discount from market of a similar freely traded security; yield to maturity; prior market values of the security; and ratings. To determine the appropriate valuation method, the following general factors are considered: the fundamental analytical data relating to the investment; the nature and duration of restrictions on disposition of the securities; the evaluation of the forces which influence the market in which the securities are purchased and sold; and any other relevant factors.

Securities Purchased on a When-Issued Basis

Each Fund may purchase securities on a "when-issued" basis. When-issued securities are securities purchased for delivery beyond the normal settlement date at a stated price and/or yield, thereby involving the risk that the price and/or yield obtained may be more or less than those available in the market when delivery takes place. At the time a Fund makes the commitment to purchase a security on a when-issued basis, the Fund records the transaction and reflects the value of the security in determining net asset value. Normally, the settlement date occurs within one month of the purchase. No payment is made by the Fund and no interest accrues to the Fund during the period between purchase and settlement.

Notes to Financial Statements (Continued) (Unaudited)

2. Significant Accounting Policies: (Continued)

Investment Transactions and Related Income

During the period, security transactions are accounted for no later than one business day following the trade date. For financial reporting purposes, however, security transactions are accounted for on trade date on the last business day of the reporting period. Net realized gains and/or losses from sales of securities are determined on the specific identification cost method. Interest income is recorded on the accrual basis and includes, where applicable, the amortization of premiums or the accretion of discounts. Dividend income and realized gain distributions from underlying investments are recognized on the ex-dividend date. Income and realized and unrealized gains and/or losses are allocated among the classes based upon the proportion of relative net assets. Realized gains and/or losses on principal payments of mortgage-backed and asset-backed securities (paydown gains and losses) are classified as part of interest income.

Expenses

Expenses directly attributable to a Fund are charged directly to that Fund, while the expenses which are attributable to more than one Fund of the Trust are allocated among the respective funds based on relative daily net assets or another appropriate basis. Expenses specific to a class are charged to that class.

Distributions to Shareholders

Distributions from net investment income for the Kansas Tax-Exempt Bond Fund and Carret Core Plus Fund are declared daily and paid monthly. Distributions from net investment income, if any, for the U.S. Inflation-Protected Fund are declared and paid monthly. Distributions from net investment income, if any, for the JAForldines Global Tactical Allocation Fund are declared and paid quarterly. Distributions from net investment income, if any, for the Large Cap Growth Fund, Hillcrest Small Cap Value Fund, and International Fund are declared and paid annually. Distributions from net realized capital gains, if any, are distributed at least annually.

Distributions from net investment income and from net realized capital gains are determined in accordance with federal income tax regulations, which may differ from GAAP. These “book/tax” differences are primarily due to differing treatments for mortgage-backed securities and deferrals of certain losses.

These “book/tax” differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature (i.e. reclassification of market discounts, gain/loss, paydowns and distributions), such amounts are reclassified within the composition of net assets based on their federal tax-basis treatment; temporary differences do not require reclassifications. Distributions to shareholders, which exceed net investment income and net realized gains for financial reporting purposes but not for tax purposes are reported as distributions in excess of net investment income or distributions in excess of net realized gains. To the extent they exceed net investment income and net realized capital gains for tax purposes, they are reported as distributions of capital.

Federal Income Taxes

The Trust treats each Fund as a separate entity for federal income tax purposes. Each Fund intends to continue to qualify as a regulated investment company by complying with the provisions available to certain investment companies as defined in applicable sections of the Internal Revenue Code of 1986, as amended, and to make distributions from net investment income and from net realized capital gains sufficient to relieve it from all, or substantially all, federal income taxes. Withholding taxes on foreign dividends have been provided for in accordance with the applicable country’s tax rules and rates.

Recent Developments and Accounting Pronouncements

In May 2015, FASB issued Accounting Standards Update (“ASU”) No. 2015-07 “Disclosure for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent).” The amendments in ASU No. 2015-07 remove the requirement to categorize within the fair value hierarchy investments measured using the NAV practical expedient. The ASU also removes certain disclosure requirements for investments that qualify, but do not utilize, the NAV practical expedient. The amendments in the ASU are effective for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. Management has evaluated the impact on the financial statement disclosures and determined that there is no effect.

American Independence Financial Services, LLC ("American Independence") had been the investment adviser to the Trust on behalf of the Funds pursuant to an investment advisory agreement dated July 23, 2010, as amended through April 29, 2015 (the "Original Advisory Agreement"). On May 8, 2015, American Independence entered into a definitive agreement with FolioMetrix LLC ("Folio") and FolioMetrix Funding LLC ("Funding") whereby Folio would sell its assets to American Independence and Funding would enter into various loans with American Independence for the purpose of funding such acquisition (the "FolioMetrix Transaction"). The Original Advisory Agreement was terminated in accordance with its terms and pursuant to the 1940 Act on July 31, 2015 upon closing of the FolioMetrix Transaction, and at which time American Independence became known as RiskX Investments, LLC ("RiskX Investments"). On August 1, 2015, an Interim Investment Advisory Agreement was entered into between RiskX Investments and the Trust on behalf of the Funds. In addition, each Investment Sub-Advisory Agreement between American Independence and (a) J.A. Forlines, LLC on behalf of the JAForldines Global Tactical Allocation Fund; (b) Navellier & Associates, Inc. on behalf of the Multi-Manager International Fund and Navellier Large Cap Growth Fund; (c) Boyd Watterson Asset Management, LLC on behalf of the Boyd Watterson Core Plus Fund; and (d) Fischer Francis Trees & Watts, Inc. on behalf of the U.S. Inflation-Protected Fund was terminated. At a meeting held on March 18 and 19, 2015, the Board of Trustees, including the Independent Trustees, considered and approved an Interim Investment Advisory Agreement and Interim Investment Sub-Advisory Agreements as well as a New Investment Advisory Agreement and New Investment Sub-Advisory Agreements (the "New Agreements"), to be effective upon the approval by each Fund's shareholders. In addition, the Board of Trustees, including the Independent Trustees, approved a new Investment Sub-Advisory Agreement between RiskX Investments and Arrivato Asset Management, LLC, a wholly-owned subsidiary of RiskX Investments ("Arrivato"), on behalf of the Kansas Tax-Exempt Fund. The New Investment Advisory Agreement between RiskX Investments and the Trust was approved by shareholders at a special meeting held November 20, 2015 for the Navellier Large Cap Growth Fund, Navellier Defensive Alpha Fund, Multi-Manager International Fund, Kansas Tax-Exempt Bond Fund, Boyd Watterson Core Plus Fund, and the U.S. Inflation-Protected Fund. The New Investment Advisory Agreement between RiskX Investments and the Trust was approved by shareholders at a special meeting held November 27, 2015 for the JAForldines Global Tactical Allocation Fund. The initial term is for two years and yearly thereafter upon approval by the Board of Trustees (including a majority of those trustees who are not considered to be "interested persons" of the fund or a party to the agreement, as that term is defined in the 1940 Act ("Independent Trustees").

Manifold Partners LLC ("Manifold Partners") is the sub-adviser for the International Fund; Navellier & Associates, Inc. resigned as co-sub-adviser to the International Fund on January 26, 2017. J.A. Forlines, LLC ("JAF") is the sub-adviser for the JAForldines Global Tactical Allocation Fund. Carret Asset Management, LLC ("Carret") is the sub-adviser for the Carret Core Plus Fund and the Kansas Tax-Exempt Bond Fund, having succeeded Boyd Watterson Asset Management, LLC and Arrivato Asset Management, LLC, respectively, as sub-advisers on August 26, 2016. Fischer Francis Trees & Watts, Inc. (renamed BNP Paribas Asset Management USA, Inc., effective June 1, 2017) is the sub-adviser for the U.S. Inflation-Protected Fund. Hillcrest Asset Management, LLC ("Hillcrest") is the sub-adviser for the Hillcrest Small Cap Value Fund. The Board of Trustees has approved each of these agreements on behalf of the Trust (please see "Approval of Investment Advisory and Sub-Advisory Agreements" under "Additional Fund Information" in the annual report dated October 31, 2016 for more information). RiskX Investments is responsible for the investment management oversight in its role as adviser to all of the Funds and is responsible for overseeing the sub-advisory relationships. The portfolio managers or investment teams at each sub-adviser are responsible for the day-to-day management of the respective Fund. The sub-advisers are paid a fee by RiskX Investments out of the advisory fees received. Additional information about each sub-adviser is noted below.

FFTW (sub-adviser to the U.S. Inflation-Protected Fund) has New York offices located at 200 Park Avenue, New York, New York 10166. FFTW is a wholly-owned subsidiary of BNP Paribas Investment Partners USA Holdings Inc. ("BNPP IP USA"), a New York corporation. BNPP IP USA is indirectly owned by BNP Paribas, which is a publicly owned banking corporation organized under the laws of the Republic of France. The agreement between FFTW and RiskX Investments on behalf of the Trust was approved by Trustees at a meeting held on March 18-19, 2015 and by shareholders at a special meeting held November 20, 2015. FFTW was renamed BNP Paribas Asset Management USA, Inc., effective June 1, 2017.

Manifold Partners (sub-adviser to the International Fund) is headquartered at 455 Market Street, Suite #1200, San Francisco, CA 94105. The agreement between Manifold Partners and RiskX Investments on behalf of the Trust was approved by Trustees at a meeting held on June 22 -23, 2016 and by shareholders at a special meeting held August 26, 2016. Manifold Partners is an affiliate and, as of May 9, 2017, a member of RiskX Investments, LLC, owning the preponderance of the RiskX Non-Voting Common Units. Manifold Partners' principal owner is The Chalice Fund L.P., a private equity fund controlled by Grail, its general partner. Donald Putnam is Managing Partner of Grail; he serves as Manifold Partners' Executive Chairman and oversees all of Manifold Partners' business operations; he is also the Chairman of RiskX Investments. In addition, Darlene DeRemer, an interested Trustee of the Trust, is a co-founder and partner in Grail.

On May 9, 2017, RiskX Investments entered into a series of transactions pursuant to which RiskX Investments exchanged the intellectual property and other assets acquired in the FolioMetrix Transaction for cancellation of a promissory note and 40,006.26 Non-Voting Common Units of RiskX; also as part of these transactions, Manifold Partners received Non-Voting Common Units of RiskX representing approximately 94% of the economic interest of the Adviser. Consequently, Grail and its related affiliates and subsidiaries (including Manifold Partners) hold approximately 97% of the economic interest in RiskX Investments. Grail, through these holdings and the services of Messrs. Cognetti and Putnam as Directors of RiskX Investments, is deemed to "control" (as defined under the 1940 Act) the Adviser. Effective June 1, 2017, RiskX Investments, LLC, is known as Manifold Fund Advisors, LLC.

Pursuant to the expense limitation agreement, RiskX Investments has contractually agreed to waive a portion of its investment advisory fee and to reimburse expenses in order to maintain the Funds' total operating expenses (excluding taxes, brokerage commissions, interest on borrowings, acquired fund fees, extraordinary expenses or short sale dividend and interest expenses) at not more than the following percentages of average annual net assets effective through March 1, 2018:

Fund	Institutional Class	Class A	Class C	Premier Class
Large Cap Growth Fund	1.09%	1.47%	2.09%	N/A
Hillcrest Small Cap Value Fund	1.25%	1.63%	2.25%	N/A

Under the terms of the expense limitation agreement, any such waiver or reimbursement is subject to later adjustment to allow the Adviser to recoup amounts waived or reimbursed to the extent total annual operating expenses (excluding any taxes, interest expenses relating to dividends on short sales, brokerage fees and non-routine expenses) for a fiscal year do not exceed the expense limit that was in place at the time the fees were waived or expenses were assumed. The Adviser shall only be entitled to recoup amounts for a period of three years from the date such amount was waived or reimbursed.

The following table presents amounts eligible for recovery at April 30, 2017:

	Large Cap Growth Fund	Hillcrest Small Cap Value Fund	JAForldines Global Tactical Allocation Fund

During fiscal year 2016, net redemptions like those experienced by many advisers in the mutual fund industry coupled with the expenses associated with new product launches caused downward pressure on the economics of RiskX Investments. This caused RiskX Investments to experience reduced operating revenues and an increased operating loss. In order to better position RiskX Investments and its products for future growth, it entered into strategic discussions with Manifold Partners (both RiskX Investments and Manifold Partners are controlled by the Chalice Fund).

On May 9, 2017, RiskX Investments entered into a series of transactions in which Manifold Partners received Non-Voting Common Units of RiskX representing approximately 94% of the economic interest of the Adviser. RiskX Investments' and Manifold Partner's operations have been funded by Chalice and Grail, and RiskX Investments and the Trust's Board of Trustees (the "Board") have received verbal assurances from representatives of Grail that Grail and Chalice intend to continue funding the operations of both RiskX Investments and Manifold Partners.

RiskX Investments also provides certain administrative services necessary for the Funds' operations. The Funds are charged a fee for the services provided, and this fee is calculated based on each Fund's average daily net assets at an annual rate of 0.125%.

RiskX Investments has entered into an agreement with UMB Fund Services, Inc. ("UMBFS") whereby UMBFS provides the Funds with sub-administration services pursuant to a sub-administrative services agreement approved by the Board. For the services it provides, UMBFS earns a fee based on the aggregate net assets of all Funds in the Trust. RiskX Investments pays UMBFS and not the Funds.

Other principal service providers of the Funds include the following:

Pursuant to the Fund Accounting Services Agreement, UMBFS serves as the Trust's fund accounting agent.

Matrix 360 Distributors, LLC serves as the Funds' distributor pursuant to a distribution agreement approved by the Board.

Boston Financial Data Services, Inc. serves as the Funds' transfer agent and dividend disbursing agent.

INTRUST Bank NA, serves as the custodian for the Large Cap Growth Fund, Hillcrest Small Cap Value Fund, JAForldines Global Tactical Allocation Fund, Kansas Tax-Exempt Bond Fund, and Carret Core Plus Fund.

UMB Bank NA serves as the custodian for the International Fund and U.S. Inflation-Protected Fund.

The Trust has contracted with Compliance Solutions Associates LLC (“CSA”) to provide services with respect to the monitoring of the Trust’s compliance program pursuant to rule 38a-1 of the 1940 Act. The Trust has appointed Thaddeus (“Ted”) Leszczynski, principal of CSA, as the Trust’s Chief Compliance Officer. For these services, the Trust pays CSA a monthly fee, plus any out-of-pocket expenses. The fees are allocated amongst the funds by first allocating half the fees evenly across the funds and then the other half on a pro rata basis based on average net assets. Mr. Leszczynski is also an employee of RiskX Investments and serves as its Chief Compliance Officer and Secretary of RiskX Investments.

Each Fund has adopted a plan pursuant to Rule 12b-1 under the 1940 Act (the “Plan”) that allows its Class A shares and Class C shares to pay a distribution and service fee, as defined by the Financial Industry Regulatory Authority (“FINRA”), from its assets for selling and distributing its shares. Each Fund can pay distribution and service fees at an annual rate of up to 0.50% of its Class A share assets, and up to 1.00% of its Class C share assets. These fees consist of up to 0.25% for shareholder services of the Class A share assets and Class C share assets, and up to 0.25% for distribution expenses, as defined by FINRA, of Class A share assets and up to 0.75% of Class C share assets.

During the six months ended April 30, 2017, and as of April 30, 2017, the Funds assessed the full 0.25% of distribution fees for Class A shares assets. As of April 30, 2017, the JAForldines Global Tactical Allocation Fund, Kansas Tax-Exempt Bond Fund, Carret Core Plus Fund, U.S. Inflation-Protected Fund, Large Cap Growth Fund, and Hillcrest Small Cap Value Fund were assessing 0.13%, 0.14%, 0.10%, 0.20%, 0.13% and 0.13%, respectively, of the shareholder services fees.

The Trust, on behalf of the U.S. Inflation-Protected Fund, has adopted a non-12b-1 Shareholder Servicing Plan that allows its Premier Class Shares to pay a shareholder servicing fee from its assets for any activities relating to certain shareholder account administrative and servicing functions to agents. The expenditures to be made by the Fund pursuant to this Plan shall not exceed an annual rate of 0.15% of the average daily value of net assets represented by such shares.

Shareholder services fees on Class A shares of the Funds and Premier Class shares of the U.S. Inflation-Protected Fund paid to RiskX Investments for the six month period ended April 30, 2017 were as follows:

	<u>Class A</u>	<u>Premier Class</u>
Large Cap Growth Fund	\$ 1,165	\$ N/A
Hillcrest Small Cap Value Fund	1,918	N/A
JAForldines Global Tactical Allocation Fund	34,653	N/A

Carret Core Plus Fund	645	N/A
U.S. Inflation-Protected Fund	14,071	1,389

On January 26, 2017, Navellier & Associates, Inc. submitted its resignation of the American Independence Multi-Manager International Fund. The Fund is now being managed exclusively by Manifold Partners and the Fund’s name was changed to the AI International Fund.

On January 27, 2017, Navellier submitted its resignation of the American Independence Large Cap Growth Fund. Charles McNally of RiskX Investments assumed responsibility for managing the portfolio, and the Fund’s name was subsequently changed to the AI Large Cap Growth Fund.

4. Shares of Beneficial Interest:

The Trust has an unlimited number of shares of beneficial interest, with a par value of \$0.001, which may, without shareholder approval, be divided into an unlimited number of series of such shares, and any series may be classified or reclassified into one or more classes. Shareholders are entitled to one vote for each full share held and will vote in the aggregate and not by class or series, except as otherwise expressly required by law or when the Board of Trustees has determined that the matter to be voted on affects only the interest of shareholders of a particular class or series. Establishment and offering of additional Funds will not alter the rights of the Trust’s shareholders. When issued, shares are fully paid, non-assessable, redeemable and freely transferable. In any liquidation of a Fund, each shareholder is entitled to receive his/her pro rata share of the net assets of that Fund. For the financial reporting purposes shareholder transactions are accounted for on trade date on the last business day of the reporting period.

5. Securities Transactions:

The cost of security purchases and the proceeds from the sale of securities (excluding short-term securities, options, futures, and U.S. Government securities) for the six months ended April 30, 2017 were as follows:

	<u>Purchases</u>	<u>Sales</u>
Large Cap Growth Fund	\$ 6,079,027	\$ 14,063,445
Hillcrest Small Cap Value Fund	2,924,714	3,724,925
JAForldines Global Tactical Allocation Fund	98,387,256	103,360,525
International Fund	52,227,563	62,255,739
Kansas Tax-Exempt Bond Fund	1,395,495	21,998,237
Carret Core Plus Fund	6,760,389	21,500,175

The cost of purchases and the proceeds from sales of U.S. Government securities for the six months ended April 30, 2017 were as follows:

	<u>Purchases</u>	<u>Sales</u>
Carret Core Plus Fund	\$ —	\$ 17,665,172
U.S. Inflation-Protected Fund	240,495,049	197,693,102

6. Concentration of Credit Risk:

The Kansas Tax-Exempt Bond Fund invests primarily in debt obligations issued by the State of Kansas and its respective political subdivisions, agencies and public authorities. The Fund is more susceptible to economic and political factors adversely affecting issuers of Kansas specific municipal securities than are municipal bond funds that are not concentrated in these issuers to the same extent.

7. Federal Income Tax Information:

FASB ASC Topic 740, Accounting for Uncertainty in Income Taxes (the "Income Tax Statement"), requires an evaluation of tax positions taken or expected to be taken in the course of preparing a Fund's tax returns to determine whether these positions meet a "more-likely-than-not" standard that, based on the technical merits, have a more than fifty percent likelihood of being sustained by a taxing authority upon examination. A tax position that meets the "more-likely-than-not" recognition threshold is measured to determine the amount of benefit to recognize in the financial statements. The Funds recognize interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statements of Operations.

The Income Tax Statement requires management of the Funds to analyze all open tax years, fiscal years 2013-2016 as defined by IRS statute of limitations for all major jurisdictions, including federal tax authorities and certain state tax authorities. As of, and during the six months ended April 30, 2017, the Funds did not have a liability for any unrecognized tax benefits. The Funds have no examinations in progress and are not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

At April 30, 2017, the gross unrealized appreciation (depreciation) on investments and cost of securities on a tax basis for federal income tax purposes were as follows:

	<u>Tax Cost</u>	<u>Gross Unrealized Appreciation</u>	<u>Gross Unrealized Depreciation</u>	<u>Net Unrealized Appreciation (Depreciation) on Investments</u>
Large Cap Growth Fund	\$ 2,384,632	\$ 119,130	\$ (27,498)	\$ 91,632
Hillcrest Small Cap Value Fund	5,282,517	761,260	(164,460)	596,800
JAForldines Global Tactical Allocation Fund	101,368,889	6,030,627	(143,200)	5,887,427
International Fund	33,502,837	2,658,917	(658,793)	2,000,124
Kansas Tax-Exempt Bond Fund	170,343,308	7,236,010	(614,407)	6,621,603
Carret Core Plus Fund	48,985,966	554,209	(204,903)	349,306
U.S. Inflation-Protected Fund	300,407,868	1,649,431	(937,666)	711,765

The difference between cost amounts for financial statement and federal income tax purposes is due primarily to timing differences in recognizing certain gains and losses in security transactions.

Capital loss carryovers are available to offset future realized capital gains and thereby reduce further taxable gain distributions. During the year ended October 31, 2016, the Multi-Manager International, Kansas Tax-Exempt Bond and U.S. Inflation-Protected Funds utilized \$1,261,217, \$2,973 and \$3,593,900, respectively, of their capital loss carryovers.

Under The Regulated Investment Company Modernization Act of 2010 (the "Act"), capital losses incurred during the fiscal years beginning after the enactment date of the Act (December 22, 2010) are carried forward indefinitely and retain the character of the original loss. However, any remaining pre-enactment capital loss carryovers may expire unused, since the post-enactment capital losses are utilized before pre-enactment capital loss carryovers according to the Act.

As of October 31, 2016, the Large Cap Growth Fund had \$5,536 of qualified late-year ordinary losses which are deferred until fiscal year 2017 for tax purposes. Net late-year losses incurred after December 31, and within the taxable year are deemed to arise on the first day of the Fund's next taxable year.

8. Financial Futures Contracts:

The U.S. Inflation-Protected Fund entered into financial futures contracts to hedge its interest rate and foreign currency risk. Hedging theoretically reduces market risk, and exposure exists to the extent there is a related imperfect correlation of the price of futures contracts with the underlying interest rate risk.

Investments in financial futures contracts require the Funds to "mark to market" open positions on a daily basis, in order to reflect the change in the market value of the contract at the close of each day's trading. Accordingly, variation margin is paid or received to reflect daily unrealized gains or losses. When the contracts are closed, the Funds recognize a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the time it was closed. These investments require initial margin deposits which consist of cash or eligible securities. The details of U.S. Inflation-Protected Fund's open futures contracts at April 30, 2017 are contained at the end of its Schedule of Portfolio Investments.

Futures contracts have market risks, including the risk that the change in the value of the contract may not correlate with changes in the value of the underlying securities.

Notes to Financial Statements (Continued) (Unaudited)

9. Investments in Derivatives:

The U.S. Inflation-Protected Fund made investments in derivative instruments which included futures transactions. A derivative is an instrument whose value is derived from underlying assets, indices, reference rates or a combination of these factors. Derivative instruments may be privately negotiated contracts (often referred to as over the counter (“OTC”) derivatives) or they may be listed and traded on an exchange. Derivative contracts may involve future commitments to purchase or sell financial instruments or commodities at specified terms on a specified date, or to exchange interest payment streams or currencies based on a notional or contractual amount.

Derivative instruments may involve a high degree of financial risk. The use of derivatives also involves the risk of loss if the investment adviser is incorrect in its expectation of the timing or level of fluctuations in securities prices, interest rates or currency prices. Investments in derivative instruments also include the risk of default by the counterparty, the risk that the investment may not be liquid and the risk that a small movement in the price of the underlying security or benchmark may result in a disproportionately large movement, unfavorable or favorable, in the price of the derivative instrument.

The following table sets forth the gross value of the Funds’ derivative contracts for trading activities by certain risk types as of April 30, 2017. The values in the table below exclude the effects of cash collateral received or posted pursuant to derivative contracts, and therefore are not representative of the Fund’s net exposure.

Fund	Risk	Statements of Assets and Liabilities Location	Derivative Assets	Statements of Assets and Liabilities Location	Derivative Liabilities
U.S. Inflation-Protected Fund	Interest rate	Variation margin on futures contracts	\$102,196	Variation margin	\$—

The following table sets forth by certain risk types the Funds’ gains (losses) related to derivative activities and their indicative volumes for the six months ended April 30, 2017. These gains (losses) should be considered in the context that derivative contracts may have been executed to economically hedge securities and accordingly, gains or losses on derivative contracts may offset losses or gains attributable to securities. These gains (losses) are included in “Net realized gain (loss)” or “Net change in unrealized gain (loss)” on the Statements of Operations:

Fund	Risk	Statements of Operations Location	Net Realized Gain (Loss)	Net Change in Unrealized Appreciation (Depreciation)	Average Number of Contracts(a)	Average Notional Value(a)
U.S. Inflation-Protected Fund	Interest rate	Net realized gain (loss) from futures contracts/ Net change in unrealized Appreciation (Depreciation) on futures contracts	\$623,483	\$(399,415)	443	\$61,844,628

(a) Average number of contracts and average notional value is based on the average of quarter end balances for the period April 30, 2016 to April 30, 2017.

10. Segregation of Assets:

Fund policy requires the custodian to segregate certain assets to cover portfolio transactions which are deemed to create leverage under Section 18(f) of the Investment Company Act of 1940. Given certain operational efficiencies it is impractical to specify individual securities to be used for segregation purposes except for the initial margin of futures contracts. Therefore, the Funds’ custodians have been instructed to segregate all assets on a settled basis. A Fund will not enter into transactions deemed to create leverage in excess of the Fund’s ability to segregate up to 100% of its settled liquid assets.

11. Cash Concentration:

At times, the Funds maintain cash balances at financial institutions in excess of Federally insured limits. The Funds monitor this credit risk and have not experienced any losses related to this risk.

Notes to Financial Statements (Continued) (Unaudited)

12. New Accounting Guidance:

In October 2016, the Securities and Exchange Commission issued new rules, *Investment Company Reporting Modernization*, to amend the reporting and disclosure of information by registered investment companies ("RIC"). The final rules amend Regulation S-X and require standardized, enhanced disclosures, particularly related to derivatives in RIC's financial statement. The effective date of these amendments is August 1, 2017. Management is currently evaluating the impact that the adoption of the amendments to Regulation S-X will have on the Funds' financial statement and related disclosures.

13. Subsequent Events:

Subsequent events occurring after April 30, 2017, have been evaluated for potential impact to this report through the date these Financial Statements and Notes to the Financial Statements were issued.

On May 9, 2017, RiskX Investments entered into a series of transactions pursuant to which RiskX Investments exchanged the intellectual property and other assets acquired in the FolioMetrix Transaction for cancellation of a promissory note and 40,006.26 Non-Voting Common Units of RiskX; also as part of these transactions, Manifold Partners received Non-Voting Common Units of RiskX representing approximately 94% of the economic interest of the Adviser. Consequently, Grail and its related affiliates and subsidiaries (including Manifold Partners) hold approximately 97% of the economic interest in RiskX Investments. Grail, through these holdings and the services of Messrs. Cognetti and Putnam as Directors of RiskX Investments, is deemed to "control" (as defined under the 1940 Act) the Adviser. Effective June 1, 2017, RiskX Investments, LLC, is known as Manifold Fund Advisors, LLC.

Effective June 1, 2017, Fischer Francis Trees & Watts, Inc., the Sub-Adviser of the American Independence U.S. Inflation-Protected Fund, will be known as BNP Paribas Asset Management USA, Inc.

Effective June 1, 2017, BNP Paribas Asset Management USA, Inc. intends to trade and clear inflation-linked swap transactions and establish clearing arrangements with a futures commission merchant, swap execution facility and the requisite clearinghouses on behalf of the American Independence U.S. Inflation-Protected Fund.

Table of Shareholder Expenses

As a shareholder of the Funds, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchases and (2) ongoing costs, including management fees; distribution and services fees and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Funds and to compare these costs with the ongoing costs of investing in other mutual funds. The example is based on an investment of \$1,000 invested on November 1, 2016 at the beginning of the period and held for the entire period from November 1, 2016 through April 30, 2017.

Actual Expenses

The table below provides information about actual account values and actual expenses. You may use the information below, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the table under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

		Beginning Account Value 11/1/2016	Ending Account Value 4/30/2017	Expenses Paid During Period* 11/1/2016- 4/30/2017	Expense Ratio During Period**† 11/1/2016- 4/30/2017

* Expenses paid during the period are equal to the annualized net expense ratio for each class as indicated above, multiplied by the average account value over the period, multiplied by 181/365 (to reflect the one-half period).

** Annualized.

† Does not include expenses of the investment companies in which the Funds invest.

Hypothetical Example for Comparison Purposes

The table below provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads), redemption fees, or exchange fees. Therefore, the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.
